Minutes: Yan

Suggestion box:

- Why are cultural programs only related to Brazil and Angola? What are the other ones?
 - Response: They're hosted by residential scholars at Ashdown. Residents are welcome to host their own.
- Weed & cigarette smell at Ashdown

- Response: Since MIT receives federal funding, smoking is not allowed. We can send to Julie or Adam and let them send out reminders regarding the no-smoking notification to all the residents.

GRCG Funding: Katie mentioned there's currently no proposals from Ashdown; new AHEC will see whether there're proposals. Also reminded new AHEC to focus on June deadlines which cover the new students orientation events.

Ashdown gmail account (from old AHEC to new AHEC): Luke got the password & figured out a way to go through the 2FA process. Looks like it works well. New AHEC will keep track of everything in the Google drive there.

Transition training: Luke done ¾. Yuki & Kanika done all.

Ashdown website & mailing list (Victor):

- Seniority points are manually done for this cycle. Issue: Currently there's no way to know how long someone has been an officer (the current solution is to go through all previous officer lists). Anyway it looks fine because it only takes a few minutes per ppl.
- Old website doesn't seem to contain anything that's not yet migrated (room schedule Google calendar hasn't been added, but they should be there soon; Victor is going to follow up). Victor suggests pulling it down; will reach out to tech team to make sure it's indeed this case.

Officer orientation: Yuki hasn't got access to google docs from Victor. Will go through the list after transition.

Bike room: Katie thinks it should be better now. Sidpac no longer complains that Ashdown ppl using their bike rooms. Will see.

AHEC events: retreat this Sat (Katie suggested some icebreakers) & dinner next Wed (Apr 30), both w/ head of house.
